PROFILE

Enthusiastic and driven software developer with a solid foundation in computer science principles and programming languages. Eager to leverage academic knowledge and practical skills to contribute effectively to innovative software projects. Quick learner with a passion for continuous growth and a strong desire to make a positive impact in the tech industry.

PROFESSIONAL TRAINING:

Complete professional training on IBM i (AS/400) in Pms Information Systems in chennai

Sep - 2023 Dec - 2023

- IBM (AS/400) Skills:
- Languages : CL/400,RPG,RPG IV ILE.
- Operating Systems : OS/400.
- DBMS : DB2 UDB.
- Tools & Utilities : PDM,SDA,DFU,RLU,SEU,SQL/400

PROJECTS

Predicting students placement by campus reruitment system

- The "Predicting Students Placement by Campus Recruitment System" project aims to develop a predictive model that can forecast the likelihood of a student being placed through campus recruitment based on various factors such as academic performance, skills, extracurricular activities, and demographic information. The project involves collecting historical data on student placements and using machine learning algorithms to analyze and predict future placement outcomes. The ultimate goal is to provide valuable insights to both students and recruiters, helping them make informed decisions and improve the efficiency of the campus recruitment process.

Technology used:

Machine learing algorithms
Naive Bayes(nb)
Decision Tree
Random forest
